

**MB500 multifunction  
printer series**

Ultimate versatility.  
Unrivalled performance

# The next generation of multipurpose printers

Representing the high end of Panasonic's market-leading multifunctional printer range, the uncompromising MB500 series brings you unwavering quality, versatility and durability, whatever the daily demands of your business.

With multi-size paper-handling capabilities – from A6 to A3 options – multiple modes, and compatibility with mobile devices, we're delivering superb flexibility in a compact A4 printer body.

Thanks to large-volume paper capacity, and superior scan, copy and print speeds, the MB500 series is the ultimate cost-saving and productivity-enhancing solution for fast-paced enterprises, large or small.

## Where speed meets performance

Laser print, copy, scan and fax

Up to A3-size handling

Simplex and duplex

150,000-page duty cycle

4.3" colour touchscreen

Built-in Wi-Fi

USB port

Eco and secure print modes

Compact and robust design

## DP-MB537

memory

## DP-MB545

45 ppm  
A4

24 ppm  
A3

Paper capacity of  
1,750 sheets

1 GB  
memory

### Small body, large output

Although possessing the space-saving body size of an A4 printer, our multipurpose trays cater for a wide range of paper sizes – from a small A6, all the way up to A3. So whatever the proportions of your print job, you won't have to waste time and energy on manual paper changes.

### Swift and easy

Whether in simplex or duplex mode, the MB500 series is able to print and copy at speeds of up to 45 pages per minute, while innovative features offer pre-programming and double-sided scanning, amongst other functions. Time spent at the printer is reduced. Productivity is increased. And usability couldn't be easier.

### Secure printing

With the ability to password protect any confidential documents sent to the printer, you can rest assured that they'll remain private until you're ready to pick up your print job personally, and won't be left sitting in the output tray for all to see.

### Extremely cost-effective

Rapid duplexing, the ability to scan separate documents onto single pages, long-life drums, and high-yield toner cartridges, mean significantly reduced paper and ink consumption, drastically decreased day-to-day operational costs, minimal maintenance requirements, and a lowered total cost of ownership.

### Generous paper allowance

The MB500 series boasts a capacity of up to 1,750 sheets, reducing the hassle of endless paper replacement, for a more efficient way of working.

### Printing on the go

Thanks to built-in Wi-Fi and a USB port, documents can be directly printed from, or scanned to, flash drives, or mobile devices using the cloud, for truly seamless, flexible printing, anytime, and anywhere.

### Exceptional durability

Despite a sizeable monthly print volume of up to 150,000 pages, both models remain as secure and solidly reliable as their lower-output contemporaries.
