MX-7040N / MX-6240N  
Digital Multifunctional System

SRA3 COLOUR MFP  
WITH PROFESSIONAL  
FINISHING

We know that 'production class' MFPs can be complicated  
**/This is Why** we made one that's easy to use.

It can take years to learn the fine points of colour printing and finishing /**This is Why** these new MFPs do it all for you, today.

'Production class' MFPs can be rather complicated. For consistent, predictable results you really need the appropriate technical skills and experience - a comprehensive understanding of colour fidelity, printing and finishing.

But the MX-7040N and MX-6240N make life a whole lot simpler.

### Reach out for a new way of working

The MX-7040N and MX-6240N are durable, reliable and surprisingly energy efficient. In fact, they have everything that you'd expect to find in a light production MFP. Except complexity.

They have the speed that you want: 70 or 62 ppm depending on the model. They produce superb, high quality output. The paper supply (expandable to 8,500 sheets) is more than enough for long, unattended print runs on a variety of stock. They can even support SRA3, 300 g/m<sup>2</sup>, glossy and textured media.

And if you run a pay-for-print business and want the flexibility of non-technical staff being able to fulfill urgent, unscheduled projects, this is the solution. Either way, you win.

What does that mean for your business? If you want to create professional looking documents in-house - if you want a truly productive and versatile repro department - look no further.

A large colour touch screen with finger-swipe control simplifies every operation. And, thanks to a huge range of professional finishing options, they can automatically handle every job from start to finish.

## Effortless operation for instant results

The MX-7040N and MX-6240N can be used by anyone and everyone. Every feature can be instantly accessed from a tiltable 10.1" colour LCD control panel. Because this touch screen uses finger-swipe technology - similar to a smartphone - all you have to do is touch the screen and tap, flick or slide your finger for instant, intuitive control.

CONTROL PANEL TILTS IN FIVE COMFORTABLE POSITIONS

Even first time users can get working straight away, thanks to an on-screen action panel, which can guide them step by step through every procedure.

You can even add full internet access. So now your colleagues can browse for and print web content without the need for a PC. What's more, you can add Sharp OSA® to connect to the 'Cloud' and run Software as a Service (SaaS) applications developed by Sharp's Technology Partners.

A 150-sheet document feeder lets you scan large batches of single and double-sided documents. An optional retractable QWERTY keyboard makes it easy to use, save and share office applications, documents and data on the integrated 1TB hard drive.

There's a USB port for walk-up scanning and printing and a handy 'Scan to Me' feature which gives you one-touch scanning directly to your own email address.

Sharp's Document Filing System provides a 1 TB hard disk drive to store frequently used files. With the thumbnail previous mode, stored jobs can be located and retrieved quickly. Easily reprint retained jobs, combine jobs, repaginate jobs, edit pages and more. For environments with critical documents, a redundant back-up hard drive is available.

FRONT ACCESS  
USB PORT

## Speed is simply a starting point for productivity **/This is Why** we've added total automation with a choice of finishing options.

Power and ease of use count for nothing unless you have the image quality to back it up. And that's where the MX-7040N and MX-6240N really impress.

With true 1200x1200 dpi resolution, even documents with fine detail will look great! Standard true Adobe Postscript drivers deliver extensive colour control options, so you can manage colour output right from your desktop.

The MX-7040N and MX-6240N utilise an innovative Colour Consistency System which is a synergy of image processes that helps ensure colour output always looks as brilliant and sharp.

Sharp's next generation Micro-fine Toner Technology ensures optimum colour balance and edge definition. The Developer Auto-Refresh Process extends developer life between maintenance cycles, resulting in less downtime. Real-Time Process Control monitors each of the primary colours (cyan, magenta, yellow and black) and automatically makes adjustments to ensure optimum colour output and density. This process helps maintain beautiful, high quality image output throughout each print job.

### Attention to detail

As well as guaranteeing colour quality and accuracy, we've also added several important new features to further improve the quality of printing and copying without any manual fine tuning. No one has to learn these features but everyone will be glad that they're there.

- Enhanced Fine Line Reproduction
- Jagged Edge Reduction
- Enhanced Background Suppression
- Error Diffusion for Colour Copying

Sharp's print drivers also allow for advanced colour management via pre-loaded profiles. Or upload your own custom profiles via the web pages of the device.

Settings for custom profiles can be further enhanced using Advanced Colour settings. Users can make adjustments to brightness, contrast, saturation and colour balance.

Other features include the choice of printing black areas using just black toner or a mixture of CMYK. The Trapping feature ensures void areas around text are avoided on coloured backgrounds.

SHARP ADVANCED TONER  
TECHNOLOGY ENSURES  
SUPERB PRINT QUALITY

## Advanced finishing options

Finishing options give you the opportunity to create a wider range of professional documents.

Our finishers can hold up to 4,000 sheets - perfect for long print runs - and can staple up to 100 sheets at a time. You can also add a two or four hole punch module for ready-to-file documents, creating the perfect configuration for regular office tasks.

For even greater versatility and productivity, choose the multi-folding unit, which can produce Z, C, accordion, double- and half-folds. Our optional inserter lets you insert up to two kinds of paper, post process, which can be used to bind various types of documents. And the curl correction unit gives you flatter output - especially useful if you've also chosen the inline trimmer which trims between 2 and 20 sheets at a time.

For those larger jobs, a triple air-feed system ensures smooth, reliable paper feeding and you can also replenish the toner without interrupting the print run.

EXTENSIVE FINISHING  
CAPABILITIES

## Energy efficiency

The MX-7040N and MX-6240N are frugal. LED lights in the scanner and fast warm up times save time and money. Plus, a special Eco Scan Mode switches the fuser off whenever appropriate.

On/off times can be pre-scheduled and they can 'learn' your usage patterns, automatically powering down during typical quiet periods.

These and other smart design features have resulted in an impressively low Total Electrical Consumption, earning these powerful MFPs the official Energy Star label.

## Some things can be shared, others can't /This is Why we protect you with multi-layered security.

### Multi-layered security

These MFPs incorporate some of the industry's toughest commercially available security features, including data encryption. Both models have password-controlled access for robust user authentication. Plus, they come with a useful Data Initialisation feature for erasing data from your MFP when the time comes to replace it.

A secure network interface, SSL, IPsec, port-based network protection, and IP / MAC address filtering defend against the most determined attacks.

We guard against accidents, too, with features such as password-protected PDFs, a Hidden Pattern Print feature which can reveal a watermark (e.g. 'CONFIDENTIAL NOT FOR COPY') and Confidential PIN Printing which requires the user to be present at the MFP before the print run can start.

Other security features include the encryption and secure erasure of data on the hard disk, automatically or on demand.

We can prevent the unauthorized copying, scanning, faxing and filing of confidential documents, too with our Document Control Function\*. This adds copy-prevention data to a document when it is first copied or printed. If the data is subsequently detected, the MFP simply cancels the job or prints a blank page.

MULTI-LEVEL  
SECURITY

\* Requires optional Data Security Kit.

## Making life easier

The MX-7040N and MX-6240N are truly easy to manage. Every important setting can be configured from a dedicated web page.

A **Printer Status Monitor** on your PC lets you check that there's enough toner and paper before you start a job. A glance at the **Job Status Screen** will reveal every copy and print job and its position in the queue. And an alert will pop up as soon as your documents are printed.

Your support staff will love them, too.

A **Remote Diagnosis** feature monitors the MFPs through a web browser, and they'll get timely email messages when maintenance is required.

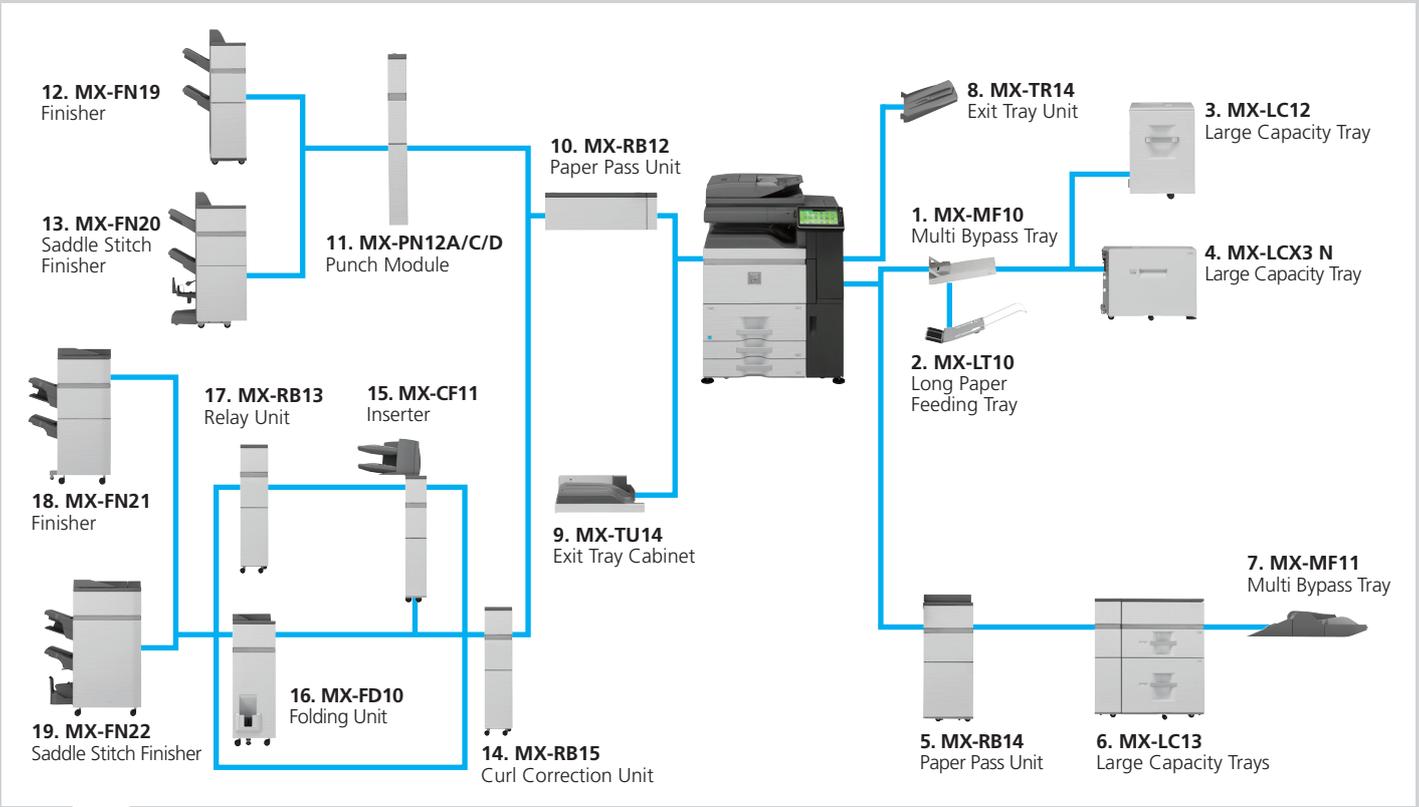

**Sharp Remote Device Manager** gives them real-time control of your Sharp MFPs - again, through a browser - making technical support, driver installation and firmware upgrades easier than ever.

They can even view and operate the front panel display, taking control, changing settings, fixing problems and providing ad hoc training, without ever leaving their desks, thanks to our innovative **Remote Access Control Panel**.

CONTROL PANEL

# OPTIONS

## Base Unit

### MX-KB13 Keyboard

**1. MX-MF10 Multi Bypass Tray**  
(for main machine)

**2. MX-LT10 Long Paper Feeding Tray**  
Recommended for banner printing.

**3. MX-LC12 Large Capacity Tray (A4)**  
A4 - B5, 3,500 sheets (80 g/m<sup>2</sup>)

**4. MX-LCX3 N Large Capacity Tray (A3)**  
A3 - B5, 3,000 sheets (80 g/m<sup>2</sup>)

**5. MX-RB14 Paper Pass Unit**  
(between machine and MX-LC13)

**6. MX-LC13 Large Capacity Trays (2 drawers)**  
SRA3 - B5R, 2,500 sheets each (80 g/m<sup>2</sup>)

**7. MX-MF11 Multi Bypass Tray (for MX-LC13)**  
SRA3 - A5R, 500 sheets (80 g/m<sup>2</sup>)

Keyboard

Long Paper Feeding Tray

Multi Bypass Tray

## Finishing

### 8. MX-TR14 Exit Tray Unit

Cannot be installed with MX-RB14, MX-LC13 and MX-MF11.

### 9. MX-TU14 Exit Tray Cabinet

**10. MX-RB12 Paper Pass Unit** (for main machine)

**11. MX-PN12A/C/D Punch Module** (for MX-FN19 & MX-FN20)  
A: 2 hole punch, C: 4 hole punch, D: 4 hole wide punch

**12. MX-FN19 Finisher** (4k - 50-sheet staple)  
A3 - B5 (offset/staple), SRA3 - A5R (non offset)  
Upper tray: 1,550 sheets\*  
Lower tray: 2,450 sheets\*  
50-sheet\* staple capacity  
(front, rear or 2 point stitching)

Finisher

**13. MX-FN20 Saddle Stitch Finisher** (4k - 50-sheet staple)  
A3 - B5 (offset/staple), SRA3 - A5R (non offset)  
Upper tray: 1,550 sheets\*  
Lower tray: 2,450 sheets\*  
50-sheet\* staple capacity  
(front, rear or 2 point stitching)  
Saddle stitch tray: 10 sets (11-15 sheets),  
20 sets (6-10 sheets), 25 sets (1-5 sheets).  
Max 15 sheets per set.

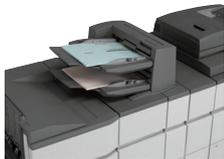

Saddle Stitch Finisher

#### 14. MX-RB15 Curl Correction Unit

Corrects paper curling by putting pressure on the convex/concave curl.

#### 15. MX-CF11 Inserter (200-sheet x 2 bin)

Requires MX-FD10 or MX-RB13.  
SRA3 - A5R, 200 sheets each (80 g/m<sup>2</sup>)

Inserter

#### 16. MX-FD10 Folding Unit

Required if MX-CF11 is installed and MX-RB13 is not required.  
Folding options include Z, C, accordion, double and half folds.

Folding Unit

#### 17. MX-RB13 Relay Unit

(between 100-sheet staple finisher and inserter)  
Required if MX-CF11 is installed and MX-FD10 is not required.

#### 18. MX-FN21 Finisher (4k - 100-sheet staple)

A3 - B5 (offset/staple), SRA3 - A5R (non offset)  
Upper tray: 1,500 sheets\*  
Middle tray: 250 sheets\*  
Lower tray: 2,500 sheets\*  
100-sheet\* staple capacity  
(front, rear or 2 point stitching)

Finisher

#### 19. MX-FN22 Saddle Stitch Finisher (4k - 100-sheet staple)

A3 - B5 (offset/staple), SRA3 - A5R (non offset)  
Upper tray: 1,500 sheets\*  
Middle tray: 250 sheets\*  
Lower tray: 2,500 sheets\*  
100-sheet\* staple capacity  
(front, rear or 2 point stitching)  
Saddle stitch tray: 5 sets (16-20 sheets),  
10 sets (11-15 sheets), 15 sets (6-10 sheets),  
25 sets (1-5 sheets). Max 20 sheets per set.

Saddle Stitch Finisher

#### MX-TM10 Trimming Module (for MX-FN22)

Up to 20 mm trim width, 1,500 sheets (80 g/m<sup>2</sup>)

#### MX-PN13A/C/D Punch Module (for MX-FN21 & MX-FN22)

A: 2 hole punch, C: 2/4 hole punch, D: 4 hole wide punch

## Faxing

#### MX-FWX1 Internet-Fax Expansion Kit

#### MX-FX11 Fax Expansion Kit

Super G3 fax module.

## Connectivity

## Printing

#### MX-PF10 Barcode Font Kit

Enables barcode printing.

#### MX-PUX1 XPS Expansion Kit

Enables XPS printing.

#### MX-AM10 Web Browsing Expansion Kit

Enables Internet browsing from the control panel.

## Scanning

#### AR-SU1 Stamp Unit

Marks already scanned documents for checking.

#### MX-EB11 Enhanced Compression Kit

Enables creation of high compression PDFs.

## Sharpdesk Licenses

#### MX-USX1/X5/10/50/A0

1/5/10/50/100-License Kit

## Sharp OSA®

#### MX-AMX1 Application Integration Module

#### MX-AMX2 Application Communication Module

#### MX-AMX3 External Account Module

## Sharp OSA Network Scanner Tool Licenses

#### MX-UN01A/05A/10A/50A/1HA (Requires MX-AMX2)

1/5/10/50/100-License Kit

## Security

#### MX-FR36U Data Security Kit (non CC version)

#### MX-EB15 Mirroring Kit

Second hard drive enables data backup of files stored on HDD.

\* A4 or smaller, 80 g/m<sup>2</sup>. Some options may not be available in some areas.

## CONFIGURATION EXAMPLES

- A4 or A3 paper handling
- SRA3 and 300 g/m<sup>2</sup> via bypass tray
- 3,100-sheet paper capacity

Offers a small footprint for fast, high quality convenient office printing and copying.

- A4 or A3 paper handling
- SRA3 and 300 g/m<sup>2</sup> via bypass tray
- 6,600-sheet paper capacity
- 4,000-sheet finisher
- 50-sheet stapling
- 2 or 4 hole punching

Offers busy offices high speed quality printing and copying of regular office documentation.

- A4 or A3 paper handling
- SRA3 and 300 g/m<sup>2</sup> via bypass tray
- 6,600-sheet paper capacity
- 4,000-sheet finisher
- 50-sheet stapling
- 15-sheet folding
- Saddle stitching
- 2 or 4 hole punching

Offers all of the above plus occasional booklet making up to 60 pages.

- A4 or A3 paper handling
- SRA3 and 300 g/m<sup>2</sup> via bypass tray
- 6,100-sheet paper capacity
- 4,000-sheet finisher
- 100-sheet stapling
- 20-sheet folding
- Curl correction

Fast and versatile offering professional capacity finishing. A productive solution for small print rooms or an area supporting a large number of users.

- High capacity A4, A3 or SRA3 paper handling
- Air feeding enables reliable handling of coated, uncoated and textured media
- Choice of 5 popular fold options
- 100 sheet stapling
- 20 sheet saddle stitching 5 in-line folding options
- Curl correction

Fast and productive. Ideal for producing a variety of marketing materials such as mailers, pamphlets and brochures.

- High capacity A4, A3 or SRA3 paper handling
- 8,500 sheet paper capacity
- 100 sheet stapling
- 20 sheet saddle stitching with optional fore-edge trimming up to 20mm
- 5 in-line folding options
- Post process insertion
- Curl correction

The most versatile and productive configuration for busy print-rooms, reprographics departments or print-for-pay establishments.

## GENERAL

<b>Engine speed (ppm/cpm) (Max)</b>	A4 A3		<b>Paper capacity (Std – Max)</b>	
MX-7040N	70	35	Sheets	3,100 – 8,500
MX-6240N	62	32	Drawers	4 – 6 (plus multi bypass tray)
<b>Paper size (Min – Max)</b>			<b>Warm-up time*<sup>1</sup> (seconds)</b>	55
Drawer 1 & 2	A4		<b>Duplex</b>	Std
Drawer 3	B5R - A3W		<b>Memory</b>	
Drawer 4	A5R - A3W		Copier/Printer (shared)	5 GB
Multi bypass	A5R - SRA3		HDD	1 TB
	1,200 x 320 mm (Max)		<b>Power requirements</b>	Rated local AC voltage $\pm 10\%$ , 50/60 Hz
<b>Paper weight (g/m<sup>2</sup>)</b>			<b>Power consumption kW (Max)</b>	3.84
Drawer 1 & 2	60 - 105		<b>Dimensions (mm) (W x D x H)</b>	845 x 844 x 1,222
Drawer 3 & 4	60 - 220		<b>Weight (kg)</b>	222
Multi bypass	55 - 300			

## COPIER

<b>Original paper size (Max)</b>	A3
<b>First copy time*<sup>2</sup> (seconds)</b>	Colour B/W
MX-7040N	5.1 3.7
MX-6240N	5.6 4.0
<b>Continuous copies (Max)</b>	9,999
<b>Resolution (dpi)</b>	
Scan (Colour)	600 x 600
Scan (B/W)	600 x 600, 600 x 200
Print	600 x 600
	9,600 (equivalent) x 600 (depending on print mode)
<b>Gradation levels</b>	256
<b>Zoom range (%)</b>	25 – 400 (25 – 200 using DSPF) in 1% increments
<b>Preset copy ratios</b>	10 (5R/5E)

## NETWORK PRINTER

<b>Resolution (dpi)</b>	1,200 x 1,200, 600 x 600, 9,600 (equivalent) x 600
<b>Memory</b>	5 GB shared
<b>Interface</b>	USB2.0, 10Base-T / 100Base-TX / 1000Base-T
<b>Supported OS</b>	Windows® XP, Windows Server® 2003, Windows Vista®, Windows Server® 2008, Windows Server® 2008 R2, Windows® 7, Mac OS X 10.4.11, 10.5 – 10.5.8, 10.6 – 10.6.8, 10.7 – 10.7.2
<b>Network protocols</b>	TCP/IP (IPv4 & IPv6), IPX/SPX (Netware), EtherTalk (AppleTalk)
<b>Printing protocols</b>	LPR, Raw TCP (port 9100), POP3 (e-mail printing), HTTP, Novell Printserver application with NDS and Bindery, FTP for downloading print files, EtherTalk printing, IPP
<b>PDL emulation</b>	Std PCL6, Adobe® PostScript® 3™ Opt XPS* <sup>3</sup>
<b>Available fonts</b>	
PCL	80
Adobe® PostScript® 3™	136

## NETWORK SCANNER

<b>Scan method</b>	Push scan (via operation panel) Pull scan (TWAIN compliant application)
<b>Resolution (dpi)</b>	
Push scan	100, 150, 200, 300, 400, 600
Pull scan	75, 100, 150, 200, 300, 400, 600, 50 - 9,600 via user setting
<b>File formats</b>	XPS* <sup>4</sup> , PDF, Encrypted PDF, Compact PDF* <sup>5</sup> , PDF/A, JPEG, TIFF
<b>Scan destinations</b>	Scan to e-mail, desktop, FTP server, network folder (SMB), USB memory, fax* <sup>6</sup> , i-fax* <sup>7</sup>
<b>Scanner utilities</b>	Network Scanner Tool, Sharpdesk

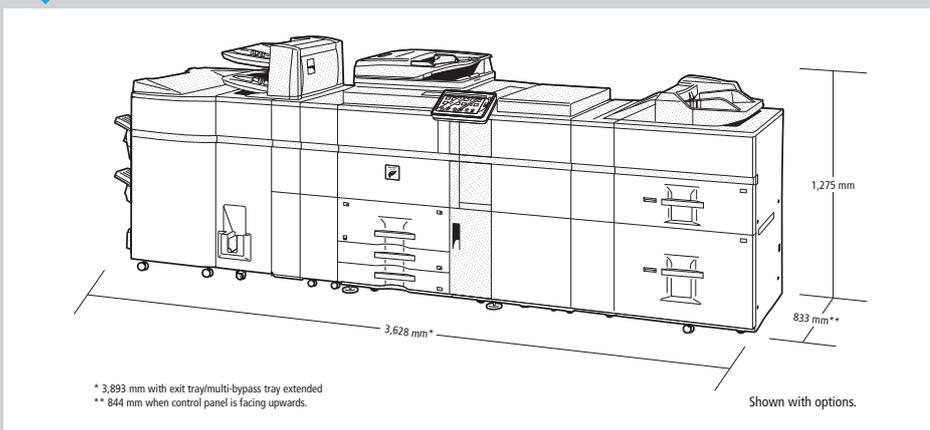

## DOCUMENT FILING

<b>Document filing capacity (pages/or files)</b>	
Main folder & Custom Folder	35,000* <sup>8</sup> or 5,000
Quick file folder	10,000* <sup>8</sup> or 1,000
<b>Stored jobs</b>	Copy, print, scan, fax transmission* <sup>6</sup>
<b>Storage folders</b>	Quick folder, main folder, custom folder (max.1,000)
<b>Confidential storage</b>	Password protection (for main and custom folders)

## FAX (requires optional MX-FX11)

<b>Compression method</b>	MH/MR/MMR/JBIG
<b>Communication protocol</b>	Super G3 / G3
<b>Transmission time*<sup>9</sup> (seconds)</b>	Less than 2
<b>Modem speed (bps)</b>	33,600 – 2,400 with automatic fallback
<b>Transmission resolution (dpi)</b>	
Std	203.2 x 97.8
Ultra Fine	406.4 x 391
<b>Recording width</b>	A5 – A3
<b>Memory (GB)</b>	1
<b>Grey scale levels</b>	256

## EXTERNAL DIMENSIONS

## NOTES

- \*<sup>1</sup> At rated voltage. May vary depending on machine conditions and operating environment.
- \*\*<sup>2</sup> Best achieved time based on A4 copy, long-edge feeding from 1st paper drawer, using document glass, when machine is ready. May vary depending on machine conditions and operating environment.
- <sup>3</sup> Requires optional MX-PUX1.
- <sup>4</sup> To view XPS files on PCs not running Windows Vista, you must have the XPS View application installed.
- <sup>5</sup> Requires optional MX-EB11.
- <sup>6</sup> Requires optional MX-FX11.
- <sup>7</sup> Requires optional MX-FWX1.
- <sup>8</sup> Measured using Sharp's standard chart (A4 with 6% coverage, B/W). The storage capacity will be less for colour pages.
- <sup>9</sup> Based on Sharp's standard chart with approx. 700 characters (A4 portrait) at standard resolution in Super G3 mode, 33,600 bps, JBIG compression.
